MOBILE WORKSHOP

VEHICLE FITTING SERVICE - MACHINES & RACKING

WHY USE UNIFLEX?

Uniflex have a strategic alliance to provide vehicles equipped with the highest quality racking and storage solutions. Uniflex work with the best partners to ensure you have the best crimping machines, with the best quality racking.

We can now further offer our customers a range of proven products and specifications for the mobile market. In addition to the standard layouts we are also able to offer a full tailored design and fitting service.

Both of the above service options allows selection of various design specifications with options to fit all vehicles and meet all budgets.

Uniflex in house vehicle fitting service guarantees the fastest possible delivery.

FEATURES & BENEFITS

- Ultra high strength steel - 4 x stronger than mild steel
- Ultra light racking technology allows more weight for product storage - up to 30% lighter
- Dead loss zero compact lipped shelving - 25% more space
- Improved design and storage facilities in your vehicle
- Logical storage to give maximum efficiency during the production of hose assemblies
- Easy and fast stock checks
- Robust quality electrical system
- Increased safety to passengers and the cargo of the vehicle
- Reduced emissions and fuel costs
- Professional image that will give your customers confidence

Uniflex offer more than just a mobile workshop, Uniflex offers production quality and full peace of mind!
